THE 1 MM

LOOK BOOK

2018-2019

| 15 Years of Consumers' Choice |

INTRODUCTION

In our relentless pursuit to delight you with newer designs and ways to style your interiors, we present you with the fifth edition of our much awaited CenturyLaminates Look Book. Keeping in mind the ever-changing needs of your home and work spaces, we have introduced a large number of cutting-edge laminate designs across all our sections international in looks and universally appealing.

What’s something we take immense pride in is - CenturyPly Studio, a unique app-based feature that allows you to virtually experience how our range of laminates will look in your spaces, should you wish to see more than just one design or a combination. More on that on the adjoining page.

For your browsing pleasure, we are introducing 89 designs to our vast repertoire. These ‘new’ laminates have been flagged off with “new” marking in distinct red colour to ensure they catch your eye.

The first section of LookBook 2018-19 - Lucida, is dedicated to our high gloss laminates. We have added 15 new designs giving you options to think beyond their regular use in kitchens and on wardrobes. These laminates can also be used as wall-panelling, on doors and even within your showrooms - applications which haven’t been explored earlier.

The second section is a new introduction called Silk Tuff. With Silk Tuff range of laminates, get the magic of solid surfaces with seamless finish. We have introduced 16 designs along with matching Edgeband from Rehau.

In our third section, we have introduced an innovative range of Anti-Fingerprint laminates. These are ideal for areas that

requires hygiene in both residential and commercial buildings.

The fourth section vividly demonstrates the various Combinations that you can choose from. Featured here are 19 of the latest designs available in the country today along with our all-time, best-selling favourite laminates. This year we have given focus to new Horizontal combinations.

Our fifth section is Textures which covers wide range of Textures finishes available with us. In our sixth section - Abstracts, we present a revamped range of uncommon designs for those who prefer their very own signature style; also keeping in mind the ever changing global trends.

The seventh section of this compendium covers our wide species of Woodgrains. The last section - Solids, has over 74 vivid colour variations, so you won’t have to compromise on your choice of shade, complementing it with our wide selection of designs.

Another attraction is our dedicated section on HD Laminates. 13 designs of high-definition digital prints are available in both gloss and matt finish.

Lastly, before taking a final decision on your choice of designs for your unique style, spare some time for our Professional range - for application within your workspaces. We have added designs in this range too!

With so many designs to browse through, go ahead and style your interiors the way you wish to. And when your world of admirers look in awe, tell them proudly: “It’s my design, my style.”

- Step 5 Press the scan button to start scanning the image.
- Step 6 Hold 5 seconds and watch the image come alive.

LUCIDA
Scuff Resistant High - Gloss Laminates

Say goodbye to your maintenance worries with sturdy and stylish high-gloss Lucida laminates. Their mirror like finish comes with scuff and abrasion resistance, making them very durable. Give your interior a shine that lasts forever.

What makes Lucida different from other gloss laminates?

Resistant to scuff, scratches and abrasion, these premium laminates are sturdier and highly durable when compared with other gloss laminates. These features protect the sheen of our laminates from regular wear and tear, giving them longer durability and a mirror-like finish to your spaces.

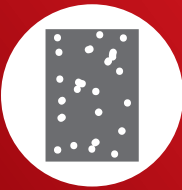

Why should you choose Lucida from CenturyLaminates?

Scuff Resistance
These laminates also reduce scuffing during transit at job sites and during installations

Mar Resistance
Lab results show 90% gloss retention after being scrubbed with calibrase as per procedure

Abrasion Resistance
Better abrasion resistance than normal high-gloss laminates

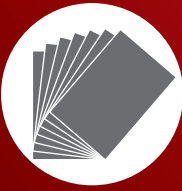

Stain Resistance
These laminates are resistant to stain and show better results as compared to other high-gloss laminates

Impact Resistance
A special top layer along with the build gives better impact resistance, thereby protecting the surface from falling objects. These laminates are 100% safe to use in kitchens as it is non-toxic and non-porous

Heat Resistance
Our laminates can withstand a temperature of 180°C as per BIS norms, making them ideal for use in kitchens

Wide Range
These laminates are available in a variety of solid colours and wood grains to choose from

Colour Fastness
Our laminates are resistant to Xenon arc light which makes their colour last longer

Where should you use Lucida?

Lucida can be used in the reception, conference room, restaurant, kitchen, retail showroom, kid’s room, dining room, living room, bar counter, etc.

MONOCORE

With the same colour decorative surface as the core layer, Monocore gives a uniform look to any surface you choose.

CenturyLaminates brings to you MonoCore

Ideal for your retail and commercial spaces, they ensure that while your interiors look sharp, the edges between two laminates are smooth.

One of the few limitations of high pressure laminates is a joint. MonoCore eliminates this concern with a range of solid colour designs which infuse the material throughout its entire thickness, removing the shadow line effect.

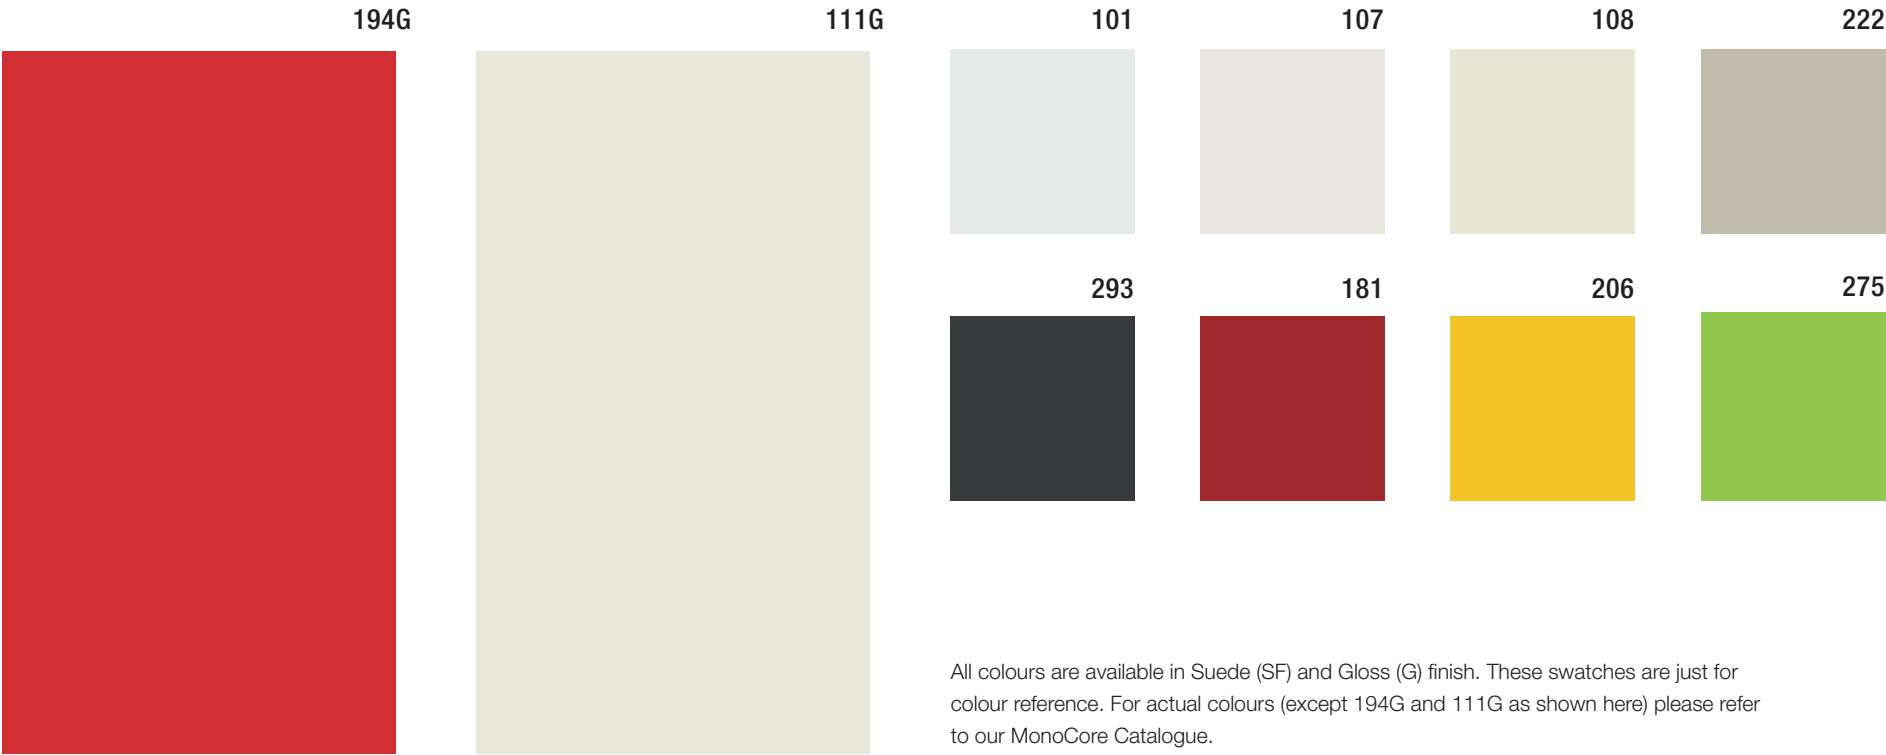

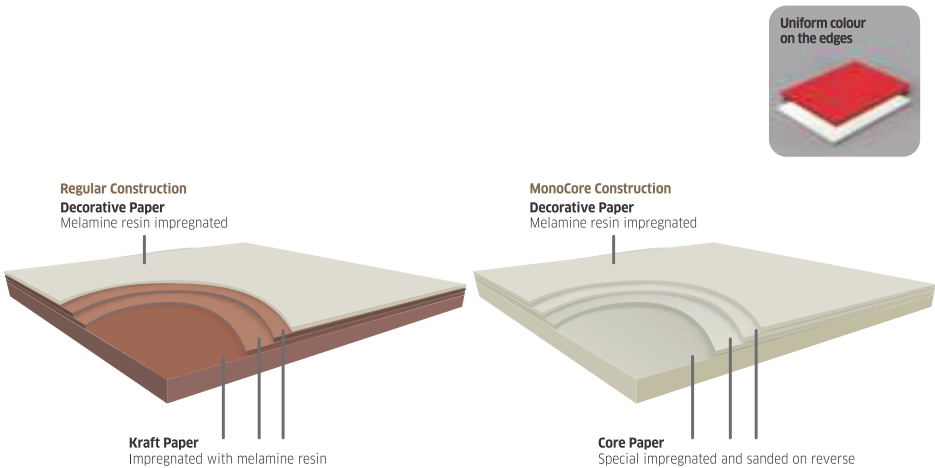

MonoCore comes in 10 contemporary solid shades and are available in two finishes, Gloss and Suede.

Product Composition

These high quality laminates have the same colour decorative surface as the core layer, giving them a uniform look.

CenturyLaminates' MonoCore is produced using a unique technology. These laminates are made of a single design paper, the reverse of which is sanded.

The decorative side is treated using melamine resins, while the core paper layer is impregnated with special resin to maintain uniform colour on the edges.

All colours are available in Suede (SF) and Gloss (G) finish. These swatches are just for colour reference. For actual colours (except 194G and 111G as shown here) please refer to our MonoCore Catalogue.

GLOSS

HD LAMINATES

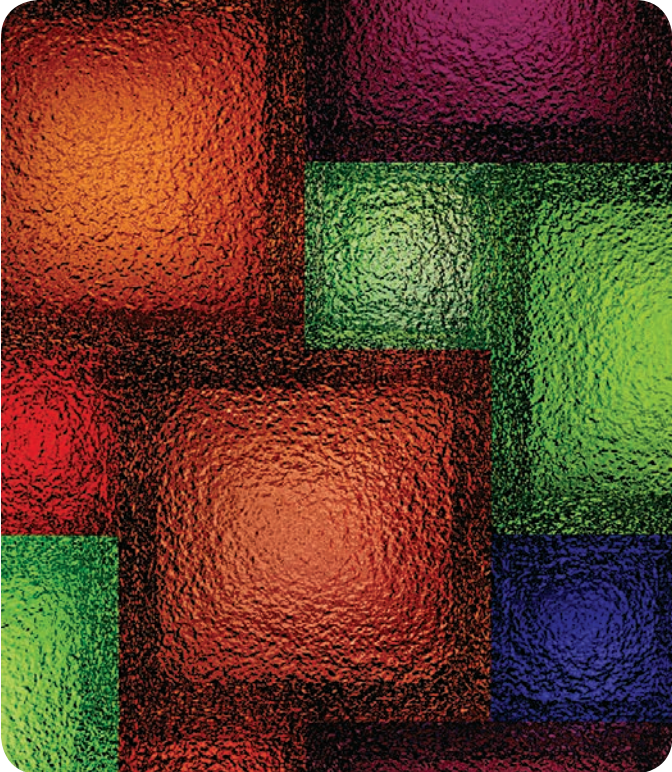

To enhance the style quotient of your interiors, CenturyLaminates has introduced these thirteen high-definition digital designs.
